EDUCATION

Bachelor of Computer Science and Engineering

Bangladesh University of Professionals (BUP)

- **CGPA:** 3.40 / 4.00 (up to 5th semester)

Jun 2023 – Jul 2027 (Expected)

Dhaka, Bangladesh

Higher Secondary Certificate (HSC)

Azizul Haque College Bogura

- **GPA:** 5.00 / 5.00 **Group:** Science

2019 – 2021

Bogura, Bangladesh

Secondary School Certificate (SSC)

Police Lines School And College Bogura

- **GPA:** 5.00 / 5.00 **Group:** Science

2017 – 2019

Bogura, Bangladesh

TECHNICAL SKILLS

Languages C, C++, Python, Java, JavaScript, SQL

Databases MySQL, PostgreSQL

Tools & Platforms Git, Docker, Wireshark, Burp Suite, n8n, Ghidra, Nessus, Nmap, Metasploit, Hashcat

Operating Systems Linux, Windows, Mac

PROJECTS

Phishing Link Checker

Python

- Developed a phishing-link analysis tool to inspect suspicious URLs and identify common phishing indicators through a modular Python workflow.
- Organized the project with CLI, parsing, extractor, and reputation-check modules to support structured link analysis.

LSB Image Steganography

C

- Built a BMP image steganography tool that hides and extracts secret messages using least significant bit (LSB) encoding.
- Strengthened low-level programming, file handling, and bitwise logic through implementation in C.

Muntaha Alert

HTML / CSS / Python

- Developed a missing-person alert prototype inspired by Amber Alert to notify nearby users and support faster response.
- Integrated pathfinding-based logic to identify the nearest police stations for routing and assistance.

BUP Exam Hall Seating Arrangement

C++ / DSA

- Collaborated on a four-member team project to automate exam hall seat allocation for academic use.
- Applied data structures and algorithmic thinking to generate organized seating plans based on predefined constraints.

Flat Rental System

SQL

- Designed an SQL-based rental management system to handle flat listings, tenant records, bookings, rent payments, and availability.
- Structured database operations to support record management and day-to-day rental tracking efficiently.

ACHIEVEMENTS

BUET CTF

2026

- Secured **7th** place, demonstrating strong problem-solving and hands-on skills across multiple cybersecurity challenge categories.

StealthFlags CTF in Televerse 1.0 by CUET

2025

- Secured **11th** place, competing against skilled teams in a variety of offensive security challenges.

V1t CTF

2025

- Ranked **20th** globally among 1,497 teams, reflecting strong international-level performance in competitive CTF

events.

TexSAW CTF

2026

- Achieved **22nd** place globally among 747 teams, showcasing consistency in solving advanced cybersecurity problems under pressure.

ICPC Participation

2024, 2025

- Participated in the International Collegiate Programming Contest Online Preliminary Round in both years, strengthening algorithmic thinking and competitive programming skills.

Cyber Invasion Army (CIA)

- Co-founded the team and helped lead it to **#5** on CTFtime through active participation and strong performance in national and international CTF competitions.

Certified Red Team Operations Management (CRTOM)

- Earned certification in red team operations management, covering offensive security planning, execution, and operational coordination.

CO-CURRICULAR ACTIVITIES

BUP InfoTech Club (BUPITC) | *General Member*

2025 – Present

- Coordinated teams and supported programming contests and workshops while contributing to community growth through collaborative learning and skill development initiatives.

Cyber Invasion Army (CTF Team) | *Co-Founder*

Sept 2025 – Present

- Co-Founded a cybersecurity initiative focused on offensive security research, competitive CTF participation, and open-source security tooling.
- Lead collaboration across security domains including OSINT, reverse engineering, exploitation, and hands-on problem solving.
